ActionScript, JSP, Java, Lingo

Platforms:

Windows, Mac, Linux

Other:

Full UK Driving License
SPA Health & Safety Passport
PADI Divemaster
Emergency First Response
Shooting Coach / Spotter

Employment

July 2007 - Present - Webexpectations.com

(Full-time) - Industrial Placement year

As part of my course at Brunel, the third year is a whole year working for a course related company. WebExpectations.com based in Maidenhead is the leading web design agency in Berkshire. During this year I will be working as part of the webdevelopment team, working alongside other colleagues in a team and on my own. This year is to allow me to develop my skills and to possibly discover what I would like to do for my final year. The companies client list can be seen on their site www.webexpectations.com. A list of projects I have worked on will be added on my portfolio site as and when I work on them.

September 2006 - Present - Brunel Student Union Bars & Events

(Part-time) - Locos Bar & Academy Nightclub.

I work behind the SU bars which is great for honing communication skills as you need to be clear with customers especially if they have been drinking. I also work as Technical staff in the nightclub, we have live bands every other weekend where we are required to mix the levels and set up equipment etc. I also work on the door as a member of the venue staff, this requires a lot of patience and clear communication skills as you are required to deal with customers before, during and after their night out.

Employment (cont.)

June - September 2006 - Blue Water Dive Cove (Gozo - Malta)

Dive Master Internship

I was working as a Dive Master while doing my Dive Master course, this allowed me to pick up key skills while I was learning the required theory. Communication and presentation skills are key before a dive during the briefing as it details safety considerations and other aspects of the dive which will affect the customers overall dive experience. I also had to work as a team back at the dive centre, filling cylinders, providing instructors with the correct equipment etc. I also learnt a lot of awareness of other people from the internship as people are paying for you to make sure they don't get into danger. You lead the dive in a safe manner, leading from the front but also you are required to keep an eye on the last person even if the visibility is low.

Summer 2002

Company: Multimedia Textbooks LTD & MMT Medical, Rutland

Employer: Peter Cannings

Job Title: Multimedia Developer / Designer

Company Site: www.mmtltd.co.uk

WorkExperience (3 weeks)

During these three weeks I worked on updating websites, and working on the interactive terminal maps which can be found on the Glasgow Airport page at BAA. I was also working for the medical side of the company and was adding content to an interactive learning CD for Rotherham NHS called Generic Skills.

Paid Work (1 week)

During this week I was working on the Generic Skills CD this was entering content and generating ideas for how the information would be communicated to the user.

Freelance Website Design

Company: Armaan Restaurant, Leamington Spa

Employer: Parvez Aktar

I was asked to design a HTML and flash website. This site is no longer available online.

Company: Jurys Restaurant, Warwick

Employer: Ray Hepple

I was asked to design an HTML website which could be easily updated by the owner of the company. This site can be seen on my online portfolio.

Interests

Scuba Diving

I am currently a Dive Master with Emergency First Response qualifications. I am looking to become a EFR Instructor soon.

Shooting

Team shooting and individuals shooting; I am a member of Uppingham Veterans shooting club and aim to enter competitions at Bisley each year if I can.

Music

I love playing my instruments - clarinet and sax. I was Band Captain of 3 bands at Uppingham, and enjoyed the responsibility it gave me. Also, the opportunity it gave me to perform as a soloist and as a member of a team.
